

Project «BATTERY CHARGER»

Activity

The company « BATTERY CHARGER » specialises in the sale of chargers, boosters, testers and accessories for batteries used in the automotive sector. The company needs a **dynamic manager** in order to **develop rapidly** with the help of the current shareholders, who are absorbed by other activities. It has the **tools it needs** to grow (attractive product range, own brands, recognised suppliers, identified distribution channels, competent and complementary current shareholders).

Location

The company's exclusively professional customers are located in **France, Belgium and the Netherlands**.

Strengths

The battery market is **booming**. Battery Charger's products are the perfect answer.

An office in Asia capable of sourcing **innovative new products**.

The Company, which without any commercial effort, is already at **break-even point** and could **grow rapidly** under a new management team.

Key figures

- Revenue: **200-300 k€**
- Breakeven profitability (significant **growth potential**)
- Shareholder capital : **70 k€**
- Net debt : **75 k€**

Transaction

After almost 10 years at the head of the company, the shareholders and founders of the company « BATTERY CHARGER » wish to retire. They are willing to **support the purchaser** and **ensure management continuity**. The sale will take the form of a **share deal for 100%** of the company's shares.
